## MR Seal Tile, Grout & Stone Sealants (Solvent based)

MR Seal - Penetrating Sealer for Grout, Tile and Masonry in liquid form. This durable, quick-drying formulation is suitable for all types of tile and masonry surfaces, including grout, (damp/wet or dry), quarry tile, sandstone, terra cotta, limestone, stucco, concrete, porcelain, marble and granite. Helps protect treated surface against penetration of oil and water-based stains. Retains the natural appearance of the tile/stone surface and will not effect the co-efficient of friction. UV light resistant and allows the treated surface to breathe. Excellent for both indoor and outdoor use. Seals damp/wet and dry grout with in 20 minutes of applying.

### Benefits and Characteristics

- ✓ Quick Drying
- ✓ Helps prevent permanent staining from oil and water-based stains
- ✓ Preserves and protects without discoloration-no pooling or flaking off the surface.
- ✓ Allows treated surfaces to breathe
- ✓ Ideal for both interior and exterior use

## MR Seal Tile & Grout Sealants

MR Seal - Penetrating Sealer for Grout, Tile and Masonry in liquid form. This durable, Slower drying formulation is suitable for all types of tile and masonry surfaces, including grout, (damp/wet or dry), quarry tile, porcelain Tiles & Ceramic Tiles. Helps protect treated surface against penetration of oil and water-based stains. Retains the natural appearance of the tile surface and will not effect the co-efficient of friction. UV light resistant and allows the treated surface to breathe. Excellent for both indoor and outdoor use.

### Benefits and Characteristics

- ✓ Slower Drying formula
- ✓ Helps prevent permanent staining from oil and water-based stains
- ✓ Use on porous and non-porous surfaces
- ✓ Allows treated surfaces to breathe
- ✓ Ideal for both interior and exterior use

## MR Seal Stone, Granite, Marble & Concrete Sealants (Water based)

MR Seal Stone, Marble & Concrete Impregnator is a non flammable, environmentally friendly, water-based impregnator that is used as a superior impregnator/sealer on all types of stone (including sandstone, limestone, terra cotta, brick, concrete, pavers, etc.) to help prevent oil and water-based stains. It also helps resist staining from chewing gum. It will not whiten, puddle, flake, peel or discolour on the surface while allowing the treated surface to breathe. UV light resistant. Excellent for both indoor and outdoor use.

### Benefits and Characteristics

- ✓ Will not pool, peel or flake off of the treated surface & allows the treated surface to breathe
- ✓ Resists penetration of oil and water-based stains and inhibits the growth of moss
- ✓ User friendly and easy to apply
- ✓ Contains no silicones
- ✓ Preserves natural look
- ✓ Ideal for both interior and exterior use
